Juslyn Vineyards, Spring Mountain - Napa Valley

Juslyn's property was purchased in 1997 by British expatriates, **Carolyn and Perry Butler**, who now have 7 acres

planted on Spring Mountain. The Estate fruit is supplemented with fruit purchased from the vineyards of well-known viticulturist **Andy Beckstoffer**. They have secured fruit from such prime Napa Valley parcels as To-Kalon, George III, and Dr. Crane.

The benchmark fruit coupled with the hard work of the Juslyn vineyard and winemaking team have made the Butler's dreams a reality. Heading up work in the Estate vineyards is famed Vineyard Manager **Oscar Renteria**, who has produced outstanding grapes for many prestigious Napa Valley vineyards. With his help, the most appropriate varieties were selected for the Spring Mountain Estate vineyards, resulting in the highest quality fruit. In the cellar, we benefit from the experience and expertise of winemaker **Craig MacLean**. After completing his Masters Degree from the University of California, Davis, Craig has produced world-class Cabernet Sauvignon at some of the Napa Valley's most prestigious wineries including Markham, Cain, and Spring Mountain Winery. Craig joined Juslyn in 1997 and has carefully crafted each of the winery's vintages.

"As I have written before, Carolyn and Perry Butler have quickly made Juslyn one of the finest sources of top quality wine on Spring Mountain. They planted their estate vineyard in 1997 and have been sourcing high quality grapes from several of Andy Beckstoffer's top Napa Valley vineyards."

Robert M. Parker, Jr. "The Creme de la Creme of Northern California" - Issue 168, December 2006

"This winery continues to make huge strides in quality, although the proprietors, Carolyn and Perry Butler, only started to plant their vineyard in 1997. The best vintages to date have been 2002 and 2003. They now possess 42 acres planted on Spring Mountain, and they produce estate wines, a Vineyard Select from such high quality Napa Valley vineyards as To-Kalon, Dr. Crane, and George III, and the Perry's Blend, a selection made by the proprietors to emulate a Napa mountainside wine, but with a Bordeaux-oriented personality."*

Robert M. Parker, Jr. "The Best of Northern California" - Issue 162, December 2005

2005 Sauvignon Blanc, Napa Valley

The 100% barrel-fermented, crisp, elegant 2005 Sauvignon Blanc offers hints of grapefruit as well as a wet stone-like character. Medium-bodied, dry, and food-friendly, this 300-case cuvee should be consumed over the next 1-2 years. **89 points**

2002 Perry's Blend, Napa Valley

The 2002 Perry's Blend (62% Cabernet Sauvignon, 34% Cabernet Franc, and the rest Merlot and Petit Verdot) exhibits aromas of white flowers, blueberries, black currants, and a hint of wood. Possessing medium to full body, terrific fruit purity, and admirable symmetry as well as elegance, this powerful red wine should drink well for 10-15 years. **93 points**

2002 Cabernet Sauvignon "Vineyard Select", Napa Valley

The 2002 Cabernet Sauvignon Vineyard Select is an 800-case offering from the Beckstoffer vineyards, primarily To-Kalon. Classic notes of cedar and cassis emerge from this Pauillac-like Napa Cabernet. A sweet mid-palate, full body, beautiful purity, and a long, spicy, heady finish suggest it will drink well for 10-15 years or longer. **93 points**

2002 "Estate", Spring Mountain

There are 400 cases of the 2002 Cabernet Sauvignon Estate, which is a blend of 72% Cabernet Sauvignon, 18% Merlot, 7% Cabernet Franc, and the rest Petit Verdot. It boasts a saturated deep ruby/purple color to the rim, along with notes of flowers, blueberries, black currants, licorice, and subtle toasty oak. The wine exhibits wonderful fullness, an impeccable touch of oak, sweet tannins, full body, and a long, layered, concentrated finish. This is a beautiful, stylish, and singular

style of Cabernet Sauvignon, the likes of which I haven't tasted from any other Spring Mountain producer. It should be at its peak between 2007 and 2020. **94 points**
